CAREER OBJECTIVE

Detail-oriented Front End Developer with a Bachelor in computer science and hand on experience gained through an internship. Seeking to leverage my skills in HTML, CSS, JAVASCRIPT and Front end framework to contribute to a dynamic team while continuously enhancing my expertise in front end development.

WORK EXPERIENCE

Front end internship/ March 2023 –May 2023

Programmer Force / Lahore

- Collaborated with senior developer to design and develop responsive web interface using HTML5 CSS3 and JavaScript.
- Participate in code reviews and debugging sessions to ensure code quality and adherence to project requirement.
- Contribute to the optimization of web pages for maximum speed scalability.
- Work closely with design team to translate wireframe and mockups into functional web pages.

PROJECT

E-commerce website

- Develop a fully functional e-commerce website using reactjs, incorporate features such as product listing, user authentication, and shopping cart functionality.
- Implemented responsive design principle to ensure seamless user experience across various screen sizes.

E-learning website

- Created a user friendly interface for browsing courses, filtering category and enrolling a desired course.
- Develop a content management system for instructor to create, upload lecture and study material.
